

Carports & Weather Protection

Everything you need in one place to provide your outdoor weather protection.

One of the best investments you'll ever make, your carport will directly protect your vehicle from all weather.

The *Simplicity* Range

The Simplicity range of solutions have been designed with quality longevity and speed of installation in mind.

We have developed these systems to be completely made from aluminium so that they last the rigorous of the British weather.

They can be glazed with polycarbonate so that you can be assured they can meet most budgets.

We place a lot of importance on keeping things simple and quick to install (hence the name) this means these products are really simple for you to maintain.

Having a range of options is also important so that you can enhance the experience by adding upgrades like lighting, heating and additional protection from the elements.

Cost effective carport systems that are quick and easy to install.

2 options

All aluminium solutions available in any colour

We have 2 very different options with 2 sets of upgrades within the Simplicity range which will enable you to specify a carport that meets your exact needs.

The Simplicity 16

The Simplicity 35

option 1

Image above shows additional side panels supplied by a trade partner.

The *Simplicity 16* Carport

Its simple; the Simplicity 16 has been developed to last a minimum of 25 years with durability and cost in mind.

Due to its clever design, the Simplicity 16 provides a durable and attractive shade and shelter solution at our most cost-effective price. It can project up to 4 metres (subject to technical loading calculations) and has a lightweight roofing system, making it perfect for use as a carport.

The stylish modern design gives a look that is second to none, enhancing the adjoining building's aesthetics. It also offers unbeatable structural performance, simply outperforming all other carport and canopy systems pound for pound.

This highly versatile canopy and carport system offers a variety of solutions for:

- **Carports**
- **Smoking Shelters**
- **Walkway Canopies**
- **Covered Play Areas**
- **Porch Canopies**
- **Caravan Shelters**

The Benefits of using this system:

All-aluminium system: The Simplicity 16 is manufactured solely from aluminium to offer exceptional longevity and easy maintenance. It also features hidden, integral guttering for a clean, modern appearance.

High speed installation: We have developed this system in partnership with one of the most prolific extrusion designers in the industry. Through his extensive expertise and using our knowledge gained from 25 years experience, we have created the simplest fixing system possible meaning minimum on site disruption for you.

Impact resistance: Some of the systems on the market today use PVC or GRP roof panels which do not have the impact resistance of polycarbonate. We only use triple wall 16mm polycarbonate sheeting to ensure that the structure lasts and has the impact resistance and the snow loading capabilities suitable for anywhere in the UK.

Variable Roof Pitch: Unlike the majority of roof kits, which only offer a fixed pitch, the Simplicity 16 offers a pitch range of 2.5 degrees to 22.5 degrees to give more height at the back or to enable a low wall plate installation.

The *Simplicity 16* Carport

Features & Benefits

- **Available in any length**
- **Available Projections** – Available up to 4m projection depending on snow load
- **Full 10 Year Guarantee** and a 25 year Life Expectancy
- **Simple fixing system with minimal parts** - For quick and easy installation
- **Low profile** – The Simplicity 16 can be fitted in areas where height is restricted
- **Stainless Steel Fixings** – All fixings are 316 marine grade stainless steel
- **Integral Aluminium Guttering** – Saves time on installation and is also stronger than an external gutter system.
- **16mm Structured Polycarbonate Panels** – Available in a Clear, Opal or Bronze finish
- **High UV Protection** – A layer of UV absorber is co-extruded onto our roofing panels to offer high UV protection

Information on the design load and maximum span limits are available on request.

Infrared Heaters

option **2**

The *Simplicity 35* Carport

A large domestic or commercial solution. Perfect for large span carports due to its durability, versatility, and unlimited length. This super heavy duty aluminium structure can span up to a massive 6m projection!

It is **completely constructed from aluminium**, giving you a structure with unbeatable durability together with a life expectancy of up to 25 years. This robust system is also supplied with a full 10 year guarantee.

The Simplicity 35 can be manufactured to **any length** to meet specific requirements and can **span up to 6 metres**, enabling you to cover multiple cars easily with minimum posts. It has a modern, stylish appearance and benefits from robust integral aluminium guttering which creates an attractive finish to the structure whilst also ensuring a quick installation. Furthermore, this aluminium guttering requires minimal subsequent maintenance throughout the products lifetime.

The Simplicity 35 system features 35mm structured polycarbonate roof panels, which are available in clear, opal and

bronze it offers in excess of 98% UV protection which reduces the risk of your vehicle paintwork fading and will protect anyone using the area from harmful UV rays.

The Simplicity 35 has a **variable wall pitch from 2.5° - 45°** so that you can decide on the height of the wall-plate to suit your needs – ideal for taller vehicles such as campervans and caravans. The aluminium framework, which is supplied in white as standard, can be coloured to any RAL or BS colour to match existing window and door frames or to create an attractive contrasting effect.

The Simplicity 35 is also the perfect veranda or canopy for commercial settings as well as private homes.

This contemporary yet robust system has passed the ACR(M) 001:2005 Test for Non-Fragility of Profiled Sheeted Roof

Assemblies and is certified as a Non-Fragile system (providing the installation conforms to span and loading charts – please contact us for more information). This glazing system must be used in conjunction with the supplied polycarbonate to conform to wind and snow loadings for the UK.

The Simplicity 35 is available in any RAL or BS colour to meet specific requirements.

The *Simplicity 35* Carport

Features & Benefits

- **Full 10 Year Guarantee** and a 25 year life expectancy
- **Fully Aluminium System** – Including heavy duty structural aluminium roof bars for ultimate strength
- **Stainless Steel Fixings** – All of the fixings are 316 marine grade stainless steel for longevity and total resistance to corrosion
- **Integral Aluminium Guttering** – Saves time on installation and creates a robust and attractive gutter system
- **35mm Structured Polycarbonate** Our 7 wall polycarbonate is amongst the strongest you can buy.
- **Fire Performance** - Polycarbonate panels benefit from excellent fire performance, meeting BS476 part 7 class 1, EN13501 and B-s1, d0
- **Robust Roof System** – The roofing system is strong enough to be walked on as a means of escape and maintenance, with the use of boards (edge protection recommended)
- **High UV Protection** – A layer of UV absorber is co-extruded on the outer surface of the roof panels which prevents damaging UV radiation from penetrating the sheet and protects those underneath from the sun. UV

protection also prevents yellowing and loss of strength to the panel, giving it longer life

- **Variable Roof Pitch** – The roof has a variable pitch of between 2.5° – 45°
- **Large Projection** – Projection of up to 6 metres to create large shaded areas if required
- **Unlimited Length** – This structure can be constructed to any length to suit requirements

Information on the design load and maximum span limits is available on request.

LED Remote Control Unit

Infrared Outdoor *Heaters*

The infrared wall mounted heaters have ceramic elements that are designed to gently warm adults and children whilst outdoors under a covered structure such as a canopy using Far Infrared technology which is completely harmless and contains no ultraviolet radiation or fumes.

The heaters also do not emit or noise and provide a gentle heat similar to the feeling of the winter sun.

Your customers can enjoy keeping warm outside without feeling too hot and without experiencing any unsightly glare.

The ceramic plates generate heat quickly and reach their full operating temperature within less than 10 minutes.

Each unit is supplied with a 5 year warranty and require no maintenance. They are CE certified and carries the UL safety recognition (file no. E214574) when installed by an approved electrician.

Size:

Available with 2 or 3 heated elements to create medium or large heated areas with a choice of different power outputs.

Modular *Heaters & LED Lights*

Our unique modular heaters and LED Lights offer individual combinations for every project.

They compliment all our canopies, verandas and awnings, are easy to install and waterproof.

Combine single modules or standard sets to every desired colour and length – 10, 20, 30, 50 or 100m.

Choose from our standard colours pure white (9010), Black (9005) and anthracite (7016) or with a supplementary charge for an individual colour of your choice.

Mounting brackets are included whether single modules or standard modular sets.

The units simply click together

Rafter *Bars*

The Rafter Bar is a highly versatile aluminium component which can be used to create either curved roofing systems, roof tops for carports or garden canopies.

They can also be used to re-roof existing structures. It is compatible with 6mm glass, 16mm and 35mm polycarbonate, allowing you to offer a wide range of glazing options without the need for various sized rafter bars, saving on cost and storage space.

This rafter bar is a 2 part aluminium bar with dual gaskets for expansion and contraction of the glazing material.

This bar needs an underside support and will span up to 1.5m (curved from purlin to purlin) and 1m unsupported from purlin to purlin at 2.5 degrees pitch.

The rafter bars are available up to 6m long and are powder coated white as standard and can include F section front and back as part of a roof kit.

"The kit was easy to self install with minimal parts and a neat finish."
