

Asbestos Garage Removal

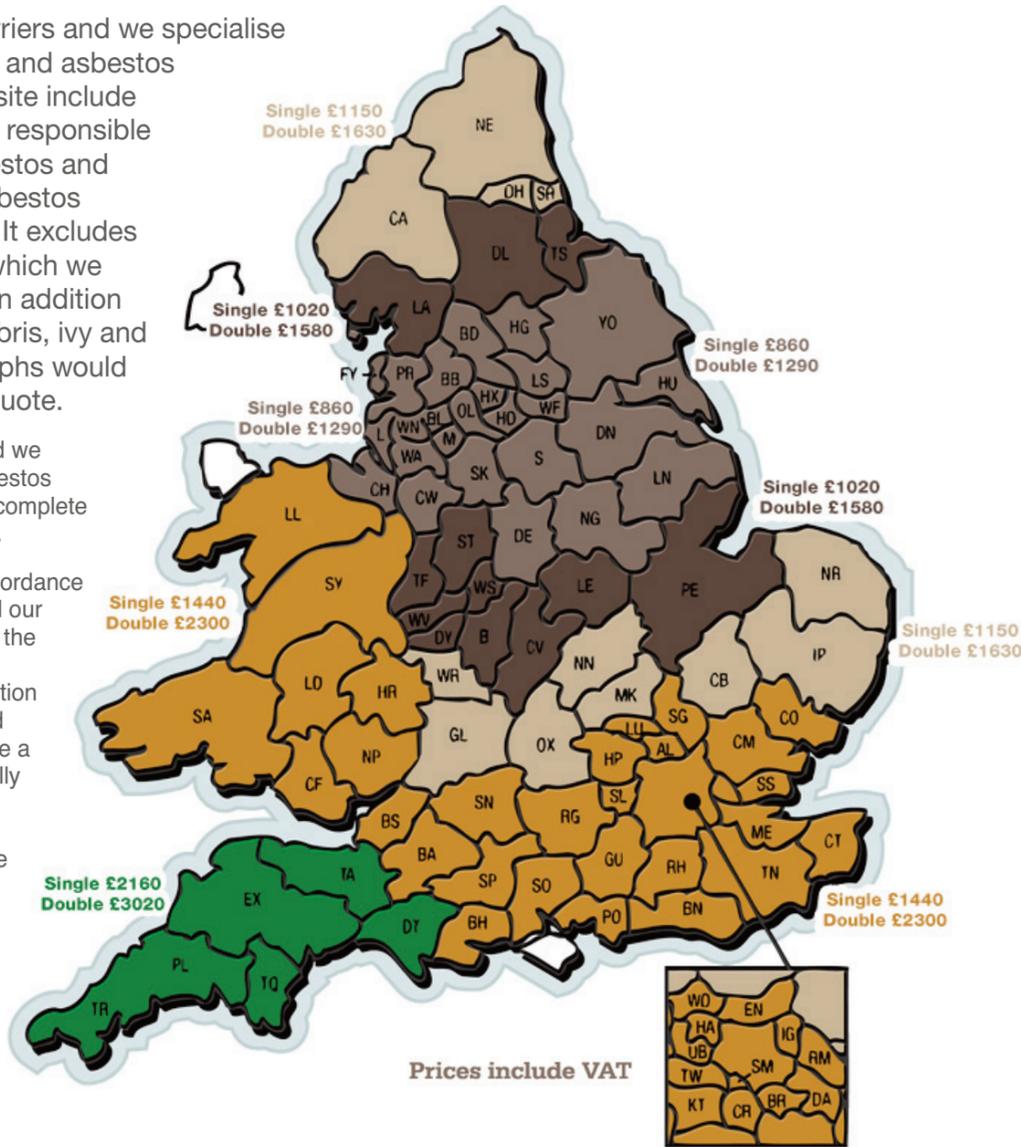

We are licensed waste carriers and we specialise in the removal of concrete and asbestos garages. Our prices opposite include the complete removal and responsible disposal for a typical asbestos and timber or concrete and asbestos garages (terms & conditions apply). It excludes the removal of the floors which we can quote for separately. In addition we can clear contents, debris, ivy and shrubs although photographs would be necessary in order to quote.

Our services are nationwide and we specialise in the removal of asbestos bonded corrugated sheets and complete asbestos and concrete garages.

All our work is carried out in accordance with good building practices and our employees are provided with all the correct personal protective equipment. Each garage demolition is completed in just one day and with minimal fuss. We rarely take a skip to site as the waste is usually transported on a Transit style of vehicle. Asbestos sheets are therefore not broken and the site will not be contaminated with airborne asbestos traces. We can also provide a separate quotation for the removal of the garage contents or to break-up the current floor.

Products & Prices

Compton Door Locks

Compton Buildings were manufacturers of concrete garages for over 50 years. Many of the components including locking handles were unique to the brand and we stock almost all of the popular garage door locks.

What you wont find are running wheels, door tracks, arms, locking bars and door internals which have now become obsolete.

We do not supply key blanks/spare keys.

Installation is straightforward providing that you have access to the inside of the building. Most locks are fastened by a pair of M5 screws (not supplied) and the locking bars/wires to the spindle by another screw.

Colour of handle may vary to images shown.

(Prices include postage and packaging)

Code 606 'T' Handle (£35.00)
2 hole front fixing / Spindle length 80mm / Between hole centres 38mm.

Code 602 Long Spigot (£35.00)
Spindle length 80mm / Between fixing centres 50mm.

Code SJ8804 'T' Handle (£35.00)
2 hole front fixing / Spindle length 80mm / Between hole centres 45mm.

M5988 (£10.00)
Interior Door Handle 3130.

Lock cam (£12.00)
Lock cam for use on all spindle locks which have a pair of metal locking bars / Fits directly onto spindle / 75mm (3") centres.

AZSP 1024 (£22.00)
Interior Door Handle.

Banbury Compton Door Springs, Eye Bolts & Wires

These two springs (Codes SJ8949 & 8923) are common to the Compton range of garages up until 1999. The longer 99 coil springs were generally found of larger wider garage doors.

(Prices include postage and packaging)

Code SJ8949 Pair of Compton Door springs (£69.99)
69 coils / 15in long (exc. loops).

Code 8923 Pair of Compton Door springs (£69.99)
99 coils / 19in long (exc. loops).

Cardale Garage Door Spring AZSP3301P (£54.00)
Approximately 210 coils / 62cm(2ft0in) from coil end to coil end.

Non-Original Eyebolts (£19.95)
Sold in pairs / 12in long.

Cable (£11.99)
Suitable for Banbury garage doors with suspended weight / Loop at either end and length approximately 5ft.

Compton Door Bracket (£20.00)
Sold in pairs / These brackets bolt the mechanism to the door leaf.

Compton Garage Assembly Components and Accessories

These items are standard equipment in the assembly of a Compton Garage and may prove to be useful for other brands of spar/pebbledash buildings.

(Prices include postage and packaging)

Chamfered Washer (£10.49)
Pack of 25 / Prevents assembly bolts warping / Bore diam.1cm.

Panel Spacer (£10.49)
Pack of 25 / Prevents over tightening of assembly bolts / 24mm x 24mm (6mm reducing to 4mm)

Premiseal CP (£5.99)
The original concrete garage assembly mastic / Grey coloured and not hard setting.

Compton Spar shelving brackets (£80.00)
Pack of 6 / Remanufactured Compton Spar shelving brackets.

Compton Garage Lining clips (£24.00)
Pack of 12 / Galvanised steel clips to fix timber bearers vertically to line all or part of the building / Consists of clips only, plastic washers can be purchased separately.

Compton Garage Gutter Support Kit (£60.00)
Remanufactured exclusively for comptonspares.com and to the original designs / This set includes x10 brackets, x2 fall pipe straps.

Corrugated Roofing Sheets & Roofing Clips

We stock three profiles of fibre-cement roof sheets found on the Compton Apex and other popular brands of concrete garage. The earlier B9 sheet is identified by the flat centre/ridge tile and measures approximately 7in from ridge to ridge.

The later and more popular B5 would have a snug fitting and corrugated ridge tile and measures 5in between ridges. Not found on the Compton Building but still very popular, is the 3in profile fibre cement sheet.

Each styles of sheet can be specified by length and we can also provide the unique fixings only found on the Compton Garage. We stock the corrugated B5 fibre-cement ridge tile. We **DO NOT** stock nor can we obtain the earlier 'flat' ridge common to the B9 profile.

For a time Compton did supply a flat shiny galvanised steel ridge tile not that dissimilar to the ridge tiles we use on our replacement roofs. The B5 fibre-cement tiles will directly replace these.

Avon clip (£1.50 each)
Avon clip with bolt & caps (£2.00)
Prices include delivery.

Oakley clip (£1.50 each)
Oakley clip with bolt & caps (£2.00)
Prices include delivery.

B9 3ft4in(W) x 8ft0in(L) (£65.00 per panel)*

B5 3ft4in(W) x 4ft6in(L) (£40.00 per panel)*

B5 3ft4in(W) x 5ft0in(L) (£40.00 per panel)*

B5 3ft4in(W) x 5ft6in(L) (£40.00 per panel)*

B5 3ft4in(W) x 6ft6in(L) (£60.00 per panel)*

B5 3ft4in(W) x 8ft6in(L) (£60.00 per panel)*

B5 3ft4in(W) x 9ft6in(L) (£60.00 per panel)*

Ridge Tile B5 3ft0in(L) (£30.00 per panel)*

B5 translucent 5ft6in(L) (£60.00 per panel)*

3in profile 31in(W) x 8ft0in(L) fibre cement (£40.00 per panel)*

3in profile 31in(W) x 8ft0in(L) translucent (£40.00 per panel)*

Complete roofing kits available. Find out more at www.comptonspares.com/garage-roof-kits

Foam Filler

Block the gaps underneath corrugated roof sheets with these eaves filler. The roofing profiles can be easily identified since the B5 has in most instances a corrugated centre ridge tile, the B9 an angled/flat tile.

B5, B9 and 3in profile foam filler

16ft(L) Garage (two sides) (£50.00)

18ft(L) Garage (two sides) (£55.00)

20ft(L) Garage (two sides) (£61.00)

22ft(L) Garage (two sides) (£66.00)

24ft(L) Garage (two sides) (£71.00)
